

WORK SUMMARY

OREGON RECREATIONAL BOAT SURVEY

The reviewers were charged to review the report entitled “MRIP Certification Application – Oregon Recreational Boat Survey,” and provide comments and suggestions on the survey program. The report describes a data collection program for collecting total ocean boat recreational fishery effort and catch by conducting angler interviews and boat counts to collect data on kept and released fish and angler effort, as well as biological samples.

The reviewers’ comments were transmitted electronically in a report format.

The reviewers signed a “Non-Conflict of Interest Disclosure” stating that there was no conflict that would prevent an objective review of the report.
